Part III DETAILED ACTION

*** This office action is in response to Applicant's election filed on July 13, 2001 of method claims 1-14 and 18-19. Claims 15-17, 20-28 are non-elected invention, without traverse.

Supplemental Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-6, drawn to a first method of producing a solid electrolytic capacitor, classified in Class 29, subclass 25.03.

II. Claims 7-14, drawn to a second method of producing a solid electrolytic capacitor, classified in Class 427, subclass 80.

III. Claims 18-19, drawn to a method of coating a masking agent, classified in class 427, subclass 428.

Group I invention, Group II invention, and Group III invention are species and distinct, each from the other because Group I, claims 1-6, are drawn to a first different method at least comprising coating a masking material solution that infiltrates into the dielectric film and forms a masking layer on the infiltrated portion; while, Group II, claims 7-14, are differently drawn to a second method at least comprising coating a masking material solution around the entire circumference and cutting metal material between the first and second masking layers; and whereas, Groups II, claims 18-19 are differently drawn to another method of coating by bringing a rotating disk into contact with the substrate at desired position.

Because these inventions are species and distinct for the reasons given above and have acquired a separate status as shown by the above different classifications and as given in the above examples, the fields of search are not co-extensive and separate examination would be required, restriction for examination purposes as indicated is proper. No claim is generic.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Trinh whose telephone number is (703) 308-2554. The examiner can normally be reached on Monday through Friday, from 9:00 Am to 5:00 Pm.
